# What is Draw in the Air?

Draw in the Air is a free, browser-based platform that uses a standard webcam to track hand gestures. Children stand in front of the camera and "draw" letters, numbers, and shapes in the air using natural hand movements.

All processing happens locally on the device — no video is recorded, stored, or sent anywhere. No child accounts, no emails, no data collection.

### Browser-Based

Works on Chrome, Edge, Firefox.
No downloads or installations.

### Privacy-First

Zero data collection from children.
Camera stays 100% local.

### EYFS Aligned

Activities mapped to Early Years Foundation Stage goals.

### Inclusive Design

Supports SEND pupils.
No fine motor skills required.

# How It Works

1

## Open the Browser

Visit drawintheair.com on any device with a camera. No login needed.

2

## Allow the Camera

Grant camera permission when prompted. Processing stays on your device.

3

## Choose an Activity

Pick from 9 activities: letter tracing, number formation, shapes, and more.

4

## Start Drawing!

Children stand 1-2m away and draw in the air using hand gestures.

# All 9 Activities

Every activity is free — no account or subscription needed.

### Letter Tracing
A-Z with phonics and stroke order guides

**Pre-writing & literacy**

### Number Formation
Numbers 1-10 with formation practice

**Numeracy foundations**

### Shape Drawing
Circles, triangles, squares, stars

**Spatial awareness**

### Bubble Pop
Pop bubbles with pointing gestures

**Hand-eye coordination**

### Free Paint
Open-ended creative drawing in air

**Creative expression**

### Sort & Place
Drag and categorise with gestures

**Classification thinking**

### Word Search
Find and trace words letter by letter

**Word recognition**

### Colour Match
Match colours using hand position

**Colour recognition**

### Neon Waves
Draw flowing light trails in the air

**Motor control**

# Classroom Mode

Run whole-class sessions with live tracking. Available on Teacher Pro.

### Live Leaderboard

See every student's score update in real time as they play.

### 4-Digit Join Code

Students enter a code to join — no accounts needed.

### Session Replay

Review how students performed after the session ends.

### AI Analytics

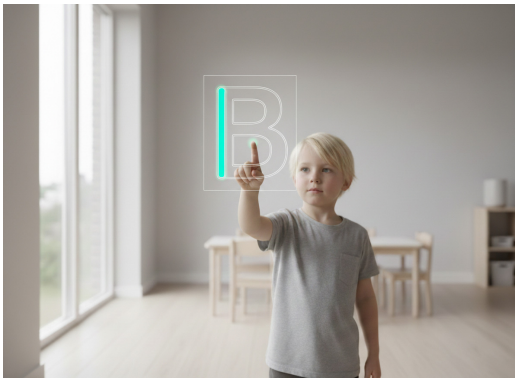
Automatic insights on class strengths and areas to work on.

### Performance Reports

Individual and class-level reports ready to share.

### Up to 30 Students

Run sessions with your entire class simultaneously.



# Built for Schools

## EYFS Framework Alignment

- Letter tracing maps to ELG: Writing
- Number activities map to ELG: Number
- Shape drawing maps to ELG: Shape, Space & Measure
- All activities support Physical Development goals

## GDPR & Safeguarding

- No child accounts or personal data collected
- No video recording — camera stays local
- No third-party tracking or advertising
- Data Processing Agreement available for school plans

## Technical Requirements

- Any device with a camera and modern browser
- Tested on Chromebooks, iPads, laptops
- Works on Chrome, Edge, Firefox, Safari
- Only needs internet for initial page load

## Accessibility & Inclusion

- Gesture-based — no fine motor skills needed
- Supports children with diverse physical abilities
- High-contrast visual feedback
- No reading required to play activities

# Getting Started

From zero to classroom session in under 5 minutes.

1. **Step 1: Visit drawintheair.com**
   Open Chrome or Edge on any device with a camera. No downloads needed.

2. **Step 2: Allow camera access**
   Click "Allow" when the browser asks for camera permission. This stays local.

3. **Step 3: Try an activity**
   Click "Try Free" and choose any of the 9 activities to explore.

4. **Step 4: Set up Classroom Mode**
   Sign up for Teacher Pro (free trial) to run whole-class sessions.

5. **Step 5: Share the code**
   Students join via a 4-digit code. No student accounts required.

**Tip: Run a test session before class**

Try each activity yourself first. This helps you guide students and understand the camera positioning that works best in your classroom.

# Simple, Transparent Pricing

## Free

**£0** forever

- All 9 activities
- Unlimited sessions
- Hand tracking
- Any device
- No account

MOST POPULAR

## Teacher Pro

**£4.99** /month

- Everything in Free
- Classroom mode
- Live leaderboards
- AI analytics
- Session replay
- Student reports
- 30 students/session

## School

**From £299** /year

- Everything in Pro
- Unlimited teachers
- School-wide analytics
- Dedicated onboarding
- Priority support
- GDPR agreement
- Custom branding

# Early Feedback

> The children were absolutely fascinated. They didn't want to stop playing — and they were practising letter formation without even realising it.
>
> **— EYFS Teacher, London**

> I was sceptical about the camera tracking, but it works brilliantly on our Chromebooks. No installation, no IT headaches. The whole class was set up in 2 minutes.
>
> **— IT Coordinator, Manchester**

> My daughter has been practising her letters every day since we found this. She thinks it's a game — I see it as secret education.
>
> **— Parent of a 4-year-old**
